Since 1998

Le transport ferroviaire intermodal de fret implique la combinaison du transport de fret par train et camion.

Presque toujours, une expédition ferroviaire aura besoin de l"aide d"un camion.

Le camion transporte le fret du hub ferroviaire à sa destination finale.

Avez-vous besoin d"un transport de marchandises sur de longues distances, de matières dangereuses ou d"articles extrêmement lourds?

L"expédition par train offre d"énormes économies par rapport à l"expédition traditionnelle par camion.

Sans oublier que c est aussi mieux pour l environnement!
