La spedizione intermodale di merci per ferrovia comporta una combinazione di trasporto merci su rotaia e su strada.

Quasi sempre, un trasporto ferroviario richiede l’aiuto di un camion.

Il camion trasporta le merci dal nodo ferroviario alla destinazione finale.

Avete bisogno di trasporto merci su lunghe distanze, di materiali hazmat o di articoli estremamente pesanti?

La navigazione su rotaia offre enormi risparmi di costi rispetto a quella tradizionale.

Per non parlare poi del miglioramento per l’ambiente!
