-**1. Importation License:** Importing cosmetics requires an Import License issued by the Ministry of Health. The license holder must be a natural or legal person resident in the State.
 -**2. Registration:** The importer must register the product with the Ministry of Health. This involves submitting a dossier containing information about the product, its ingredients, and the manufacturer.
 -**3. Testing:** Samples of the product are sent to the Ministry of Health for testing to ensure they meet the quality and safety standards.
 -**4. Labeling:** The product must be labeled in Arabic, providing information such as the product name, ingredients, manufacturer, and expiry date.
 -**5. Clearance:** After the product is tested and labeled, it must be cleared by the Ministry of Health before being allowed for sale in the market.
 -**6. Distribution:** The product is distributed through authorized channels, ensuring it reaches the consumer safely.
 -**7. Monitoring:** The Ministry of Health monitors the market for any reports of adverse reactions or quality issues.
 -**8. Compliance:** Importers must comply with all regulations and standards set by the Ministry of Health.

-**1. Importation License:** The importer must obtain an Import License from the Ministry of Health. This license is issued to the importer and is valid for a specific period.
