

Specialized in providing comprehensive logistics solutions for various industries, including cosmetics, pharmaceuticals, and electronics. Our services include air and sea freight, warehousing, and customs clearance.

Our expertise in handling delicate and high-value goods ensures safe and timely delivery. We offer specialized packaging and temperature-controlled shipping options for sensitive products like Carmine.

1) Comprehensive regulatory compliance, including MSDS and FDA requirements.  
2) Customized packaging solutions for different product types.  
3) Efficient logistics routes and carrier selection to optimize costs and transit times.  
4) Real-time tracking and reporting for 40HQ (20GP) and 38' containers, with 40' containers available for larger volumes. Our 25' containers are also available for smaller shipments.

1) Standardized container sizes and configurations.  
2) Flexible loading and unloading options, including 50' containers for oversized cargo.  
3) Securement techniques to prevent cargo movement during transit.  
4) Professional handling and inspection procedures.  
5) Comprehensive insurance coverage for all shipments.  
6) Proven track record with a 98.3% on-time delivery rate.
