El transporte de mercancías por ferrocarril intermodal implica la combinación de transporte de mercancías por ferrocarril y camión.

Casi siempre, un envío por ferrocarril necesitará la ayuda de un camión.

El camión lleva la carga desde el centro ferroviario hasta su destino final.

¿Necesita transporte de carga para largas distancias, materiales peligrosos o artículos extremadamente pesados?

El envío por tren ofrece enormes ahorros de costos en comparación con el envío tradicional de camiones.

¡Sin mencionar que también es mejor para el medio ambiente!
