Le train ne déchargera aucun conteneur sur n'importe quelle gare.

FCL & LCL

GPS Tracking

Since 1998

Le transport ferroviaire intermodal de marchandises implique la combinaison de l'expédition de marchandises par chemin de fer et par camion.

Presque toujours, une expédition ferroviaire aura besoin de l'aide d'un camion.

Le camion prend le fret du hub ferroviaire à sa destination finale.

Avez-vous besoin de transport de marchandises sur de longues distances, de matériaux hazmat ou d'articles extrêmement lourds?

L'expédition par l'expédition de train offre d'énormes économies de coûts au-dessus de l'expédition traditionnelle de camion.

Sans oublier que c'est mieux pour l'environnement aussi!
