

A large container ship, the Shanghai Express, is shown sailing on a body of water. The ship's hull is black with a red bottom, and the name 'Hapag-Lloyd' is prominently displayed in white on the side. The deck is covered with a dense stack of multi-colored shipping containers in shades of blue, orange, and grey. The ship's superstructure, including the bridge and various masts, is visible against a clear blue sky. The water around the ship shows a white wake, indicating its movement.

1

Fast delivery

2

Low damage rate

3

Large space span

4

save related costs

Air freight can save related costs for production companies. Due to the speed of air transportation, it can speed up the circulation of production enterprises' commodities, there by saving product storage fees, insurance premiums and interest expenses, etc.
