- **FCL** Full Container Load (FCL) is a shipping method where the entire container is used for a single shipper's goods. It is suitable for large quantities of cargo and provides a secure and efficient way to transport goods across long distances.
- **LCL** Less than Container Load (LCL) is a shipping method where the cargo is shared with other shippers within a single container. It is suitable for smaller quantities of cargo and is more cost-effective than FCL.
