Philippines shipping to door DDP service, Sunny worldwide logistics has no mistakes for 20 years

Sunny worldwide logistics has its own agent in the Philippines, and has done Philippine ocean-to-door DDP service for 20 years without any mistakes. This is a miracle in the industry.

In Shenzhen's international logistics market alone, there are more than a hundred agents in the Philippines for door-to-door DDP services, and almost no one has a 1,800-square-meter office building like Sunny worldwide logistics.

There are a lot of small workshop-style leather bag companies, even one-person companies. If you are not careful, you will encounter malicious abandonment, the money will run away, and there will be no after-sales risks such as damage to the goods.
